THURSDAY, OCTOBER 13.

FOR DELEGATE TO THE 56TH CONGRESS PEDRO PEREA.

The voters of Santa Fe county may rest assured that the Republicans of the county will nominate a ticket composed of good men, those who will do their duty while in office and protecthe interests of the tax payers.

The battle between the striking min ers and the sheriff's deputies and other officials at Virden. Ill., yesterday was more severe in its losses than any one battle fought in the war with Spain. There is something wrong with the ad ministration of the laws when such lamentable conflicts occur.

The Democrats of New Mexico, in convention assembled at Deming, declared they were in favor of a tariff on simply a catch-penny for votes. The Democrats of New Mexico, that is the bosses and candidates of the Democratic party, are anything for success Free traders today and protectionists the next day.

Our Democratic friends are counting on great majorities in Colfax and Grant counties, but they will be disappointed. in Grant county their majority will be materially cut down and in Colfax county it may disappear altogether. unequivocally show.

The Silver City Independent, a Dem ocratic paper, says that the Deming convention was more like a ratification meeting than anything else. Eminently correct. It ratified the will of the Dem ocratic bosses in re-nominating Mr. Fergusson, but the people had no voice in the meeting. Scarcely half the counties in the territory were represented at the meeting. Enthusiasm for Mr. Fergusson! Bosh and moonshine!

There is more trouble brewing in Col orado politics. It will be remembered that one man was killed and another wounded at the silver-fusion convention held in Colorado Springs, which was run by Senator Teller. Now, the ticket nominated at that convention has been barred from the field by Judge blood, of the district court. It seems that blood has had considerable to do with the silver ticket in Colorado this

The conduct of General Blanco at Havana leads to the suspicion that he expects the peace commissioners to fail in their negotiations, and in that event he will be ready to renew hostilities with every advantage with the Spanish troops in Cuba. The desire to postpone the evacuation of Cuba until the results of the peace negotiations are fully known is the probable cause of so much manana business in Cuba.

The claim made by the Spanish peace commissioners that the terms of the protocol are not binding on them, for the reason that Spain was compelled to sign the document under great stress of circumstances, will hardly receive much consideration on the part of the United States. Since hostilities ceased the Spanish have conducted themselves in any other way than would naturally strated that in the purchase of supplies be expected of a defeated nation, and the impression is gaining ground that the licking administered was not se vere enough.

The attacks made upon Hon. Pedro Perea by the Democrats are positive proof of the desperate situation in which the Democratic party in New Mexico finds itself, as a direct result of the numerous deceptions practiced upon the voters in the past. When a the government or the payment of any political party is compelled to resort to personal abuse and misrepresentation of the opposing candidates in order to make a fight for its own, self respecting people are about done with that party. And that is exactly the opinion of the Democratic party in the present cam-

The sales of mining properties and he numerous rumors of large deals on hand indicate that the mining industry of New Mexico has made considerable advancement since the first of the year The installation of methods for treating without regard to other nations, and ir the ores in the different camps successfully has had much to do with the sucess that has awarded the miners' eforts, and many mills are in course of onstruction which will be completed n time to handle the output of the nines in the early spring. As a mining ountry the territory is coming to the ront rapidly, and the year 1899 will see reater advancement made in the derelopment of the mineral wealth in all ections of New Mexico than for years past. A good beginning has been made and now the miners who have struggled along against hope will reap the fruits of their labor and their perseverance.

Mr. Pereas Record as a Legislator.

During the four sessions of the legis ative assembly of this territory Ho: Pedro Perea, as a months; of the upper house of that body, made a first class record as a public spirited, progressive, careful and hoast legislator. Every neasure of progress and benefit for the erritory was loyativ and earnestly suported by him. He was identified with every legislative mo e towards progess and economy in public affairs. The first regular appropriation law, which hanged the financial system of this erritory from ancient to modern and rogressive methods, and which has aved the territory, since 1889, a million f dollars, was prepued by him as a nember of the council, introduced by ilm and passed mainly through his in fluence and hard work. His labor as a legislator was of the very best and wholesome for the people of the terri tory. All the Democratic papers and politicians can say in answer to such record is, that Mr. Perea is a native born citizen of the United States of Spanish descent, and after that the only weapons they have with which to assail him are above, stander and villification. The Republicans can stand that sort of a "ampa;en and the veters will not be fooled by it. Next election day will so show, and on that day the people, by a large majority, will elect Mr. Perea to report it them in the Fif ty-sixth congress

The Deming Platform.

The Democratic party of New Mexico as represented at Deming last Sat urday by a number of the counties in the territory, through delegates and by proxies, most of whom were from Bernalillo and Santa Fe counties, an nounced its declaration of principles, on which it expects or hopes to elect its

It heartily indorses the Chicago plat form of 1896 "and renews allegiance" to that fearless son of Democracy, Hon. W. J. Bryan: favors the free and un limited coinage of silver at the ratio of 16 to 1, without waiting for the consent of any other nation, and favors the tariff on wool and live stock; denounces Strange things do happen in politics, as the Republican party generally and the was subscribed to help build the road nominee in nine special particulars, received back a dollar of this money the funding of the New Mexico debt, and advocates statehood, charges that the Republican press of the teritory is endeavoring to deprive the native people of the enjoyment of the privilege of sitting on juries and holding office, and abuse on Pedro Perea, the Republican otherwise is almost a repetition of the nominee for delegate to congress. They platform adopted in 1896. Upon this platform Mr. Fergusson must stand and make his canvass.

The Chicago platform, which the Democrats in New Mexico indorse, denounced all forms of tariff except for evenue only as a direct robbery of the people. It is well known that such was ot only the Democratic idea, but practice, under two Democratic adminis trations, as shown by the Wilson law which created a deficit during the four years of its operation of \$156,000,000, to ration issued more than \$200,000,000 of bonds, bearing 4 and 5 per cent interest, to obtain the money on which President Cleveland resorted to a syndicate of bankers, who received for their serv

ices \$16,000,000 as commissions. To be sure, the platform of the Nev on wool and live stock, that is merely an empty phrase, as the party itself, by its representatives in congress who have votes, is unalterably opposed to any protective tariff whatever, and the people of this territory have had experience under both systems and can judge for themselves which is most beneficial to their interests.

The idea of free coinage of silver by this country alone was overwhelmingly refuted at the last presidential election, and if it needed anything further, It was received by the lesson of the late war with Spain, wherein it was demon war material and vessels abroad the gold standard was the only one recognized, and it was that alone which enabled the United States to procure a navy and arm and equip the volunteers The present administration found i necessary for the conduct of the war to issue bonds, which was done to the amount of \$200,000,000, bearing 3 per cent interest, and which were sold directly to the people without any cost to

commissions to syndicates. As far as statehood is concerned, th Democrats have proclaimed loudly for admission for many years in their platforms, but on the only occasion when they had an opportunity to vote upon voters of the territory regarding the the proposition, they, to a man, declared against statehood and the adop-

tion of a constitution. The platform invites the attention of voter, to Democratic counties as coma very strong sentiment among Republican counties in the licans in this city and county for the re-nomination and re-election of that gallant soldier and honest, faithful official, Captain Frederick Muller, to the office of collector of taxes of this country of the country of the party to a practical repudiation of the party to a party to a practical repudiation of the party to a practical repudiation of the party to a party

re-nominate Captain Muller. That he time of payment for a number of years be paid; and this platform, while pur porting to be Democratic principles, is not in harmony with the national Democratic party in its methods and actions, except upon the exploded proposition of the free and unlimited free oinage of silver by this governmen its absurd and bitter denunciation of Republican principles and the Republi can administration.

Willful Defiance of Law in San Miguel County

What is the law in New Mexico rela tive to county vouchers, which the board of commissioners of San Miguel ounty have been accepting as cash for taxes? The statute distinctly declares that all taxes, save those in payment of interest on certain bonds, must be paid in cash. The law gives the county commissioners or collector of taxes no discretion whatever.

By virtue of a statute passed by the 32d legislature and framed by the leaders of the Democratic party of that body, it became the duty of Henry G. Coors, chairman of the board of county ommissioners of San Miguel county and his two brother members of the board, to fund all legal outstanding in debtedness of San Miguel county into bonds.

Did the board comply with the law

No, but why not? The owners of about \$80,000 worth o outstanding indebtedness of that county knew perfectly well that many of these accounts were worthless unde the law, having been incurred in defi ance of the law, and probably a good many of them were also dishonest in addition to being illegal. They knew or should have known, that under con gressional law, these accounts were worthless, but in order to evade the provisions of the act of congress and of the territorial laws and to protect spec lators and a gang of officials and exofficials, this great and glorious abate ment scheme, which has been played on the people by the board of county commissioners since January, 1897, was evolved, and presto, illegal accounts and judgments assumed the value of at least 75 cents on the dollar, because they were as good as cash for the payment of taxes, although the law distinctly and irrevocably commanded that only cash should be received in payment of taxes due the territory and the county.

Can any honest or fair minded citi ten justify such action? Is it not easily seen by any one who cares to see, that the board of county commissioners of San Miguel county acted absolutely without warrant of law; acted in defiance of law: acted criminally, and put off the day of final settlement with the territory of New Mexico and the bond holders to a day not far distant, when eash will be required to meet the in debtedness, which the courts will certainly and surely declare will have to be paid by the tax payers of that couny by special levies.

The Perea brothers have \$40,000 invested in the Santa Fe road. The money and in one general sweeping burst of confidence and eulogy. It condemns the building of the road, which is being circulated by the Democratic papers, is absolutely false.

The Democratic party is nothing if not a bundle of prejudices They will not vote for any one unless he speaks the dialect of West Virginia with a limpid drawl.

A Brazen Palsehood. (Albuquerque Citizen.)

As the Republican press of New Mex make up for which during a time of ico, with scarcely an exception, has adprofound peace, the Cleveland adminiscan not read and write the English language, the prevention of such from sitting on juries, the abolition of interpreters in our courts, and in otherwis deprive the native people of this territory from the enjoyment of those privi leges which pertain by birth to every American citizen, therefore this conven Mexico Democrats declares for a tariff tion pledges itself and its candidate for delegate to congress that any such move ment, either in New Mexico or in th national congress, shall be opposed by every influence and argument which the Democracy can employ,-Territorial Democratic Platform. We are in favor of increasing both our army and navy to a size commensurate with the interest of the country, thereby placing the nation in a position that will insure it a rightful influence and power among the nations of the earth. We believe in the expansion of American industry and commerce, and in the full protection of American citizens everywhere; wherever the American flag has been holsted in the name of humanity and freedom, we believe it should stay until every vestige of despotism has been removed.

REPUBLICAN PLATFORM

The Republican party of the territory The Republican party of the territory of New Mexico, in convention assembled at Albuquerque, on the 1st day of October, A. D. 1898, reaffirms its faith in the declaration of principles set forth in the national Republican platform of 1896; and it is with pride that we can again point to the fact that under a Republican administration public credit has been restored, industry revived, factories and workshops reopened and prories and workshops reopened and pro-tection given to American interests, un-der which the people are enjoying re-newed confidence and prosperity. We most heartly indorse the Dingley tariff law, enacted by a Republican con-

gress, despite the persistent opposition of the Democratic party. Under that law the sheep and wool and live stock interests have been greatly benefited and the wealth of this territory benefit-ed by many millions of dollars. We believe in sound money, and in a

volume of money sufficient for all business demands. The policy of the present administration in giving employment to labor, and protection to our various industries is a solution of the financial question. We are opposed to all financial heresies which call for cheap mancial neresies which call for cheap money, believing as we do that all money issued by the government should be of uniform and equal value.

We congratulate the country upon the great success of the present national administration, in which our president has distinguished himself as a states—

miration of the civilized world, and ten-der to the relatives and friends of those who fell in the struggle for humanity man and a patriot in dealing with do-mestic and foreign affairs; and in which he has shown so much wisdom in up-holding the honor of this nation We heartily approve the wisdom of the annexing of the Hawaiian Islands, and we favor the retention by this gov-McKinley upon the careful, patriotic and successful manner in which the dig-nity of this nation has been preserved in mity of this nation has been preserved in the war with Spain.

Scrofula, a Vile cratic delegate from this territory. The attitude of the Republican party of New Mexico has always been consistent on the question of the admission of the territory as a state. We favored the admission of the territory when the Democratic party was united in their opposition against it. We still favor its admission, believing that there is no good and substantial reason for keeping us out of the Union as a state and believe that this can best be accomplished by the election of a delegate to congress who is in harmony with Republican politics and principles.
